

Soaring to new heights

For more than 40 years, Euclid Middle School has been helping prepare students to successfully navigate the winds of life. With a student-centered environment, we're passionate about producing middle schoolers with a zest for learning!

In recognition of our efforts, the U.S. Department of Education, in May 2000, designated EMS a prestigious National Blue Ribbon School of Excellence for 1999-2000.

A National School of Excellence

*We invite interested learners
to come soar with us!*

Where learning takes flight

EUCLID
MIDDLE SCHOOL

Our greatest resource

For more than four decades, the experienced, cohesive staff at Euclid Middle School (EMS) have been challenging students to reach toward new heights. Their expertise has been acknowledged through recognition including School Counselor of the Year, Colorado Teacher of the Year (semifinalist and finalist), Colorado State Aerospace Educator of the Year, Colorado Technology Teacher of the Year, and others.

Each teacher is committed to the unchanging focus and goal of every Euclid Middle School venture: the realization of individual student potential. Student achievement is our first priority. Working closely with their teachers and sponsors, our students have won noteworthy awards in arenas such as Geography Bee, Odyssey of the Mind, Math Counts and more. Throughout their middle school journey, students are offered a multitude of challenging learning opportunities. EMS meets or exceeds the Colorado Academic Standards, which are embedded in our curriculum and instruction in the CORE classes of language arts, math, social studies and science. CORE instruction is complimented with a strong exploratory/elective program.

Enrichment events & after-school activities

At Euclid, education extends beyond the classroom walls, as we seek to help each student realize possibilities and develop potential. Intramural sports, for example, are founded on a “no cut” philosophy that allows everyone to play. The following is a sampling of those clubs, events and activities that are available to students.

- Art/Paintbrush Diplomacy
- Brain Bowl
- Chess Club
- Destination Imagination
- Geography & Spelling Bee
- Intramurals
- Math Olympiads
- Musicals
- National Junior Honor Society
- Science Fair
- Student Council
- Technology Student Association
- Webmasters & Computer Club

Partners in learning

When students, parents and educators work together, an optimal learning environment is created—a partnership for learning. Indeed, the entire Littleton community has been and continues to be involved in the ongoing success of EMS.

Communication is a key element in that process. We produce and mail the Falcon Flier monthly newsletter, offer a 24-hour Homework Hotline, utilize voice and e-mail, hold conferences four times yearly and as needed, operate the Falcon Information Line, conduct visitation and orientation for incoming sixth graders, produce the Parent Handbook, and sponsor the EMS Web page.

Parents are encouraged to become involved in shaping the school learning environment via the Parent Teacher Organization, Accountability Committee, Parent Welcome Center or Parent Volunteers.

We invite interested families to open-enroll at our school. For more information and a tour of the school, please call **303.347.7800**.

Academic Highlights
